RESOLUTION

ON THE PRICE LIST OF HUNTING AND SERVICES

2026 - 2027

The company WILDCRO d.o.o. OSIJEK is a tourist agency that sells hunting and hunting services. The company does not own hunting grounds nor does it have a hunting ground under lease or concession. As a rule, it uses hunting grounds and services provided by hunting ground owners, lessees and concessionaires of hunting rights. The company WILDCRO offers a large number of hunting grounds that often offer the same types of game and services, but with different prices and different quality of service.

Based on knowledge about the clients with whom it is negotiating, the company forms the cost prices of individual products and services in accordance with the wishes and needs of each individual client. Clients are informed of the cost prices of products through the document "HUNTING PROTOCOL" and this document is also an accompanying document with the issued invoice. The document in question is agreed with the client and the client is fully informed of the possible costs before the start of the trip / hunt.

Given the dynamic market, mainly related to supply and demand, this approach has proven to be the most transparent form of business, and related to the aforementioned very dynamic factors. Along with the document "HUNTING PROTOCOL", clients are also familiar with the General Terms and Conditions of Business of the company WILDCRO d.o.o. OSIJEK.

Osijek, 01.01.2026.
